299 Park Avenue, New York, New York 10017

New York, New York 10017

Sincerely,

Dear Mr. Schafman:

This is in response to a referral from the Chief, Freedom of Information/Privacy Office, US Army Intelligence and Security Command, Fort Meade, Maryland 20755 and your letter dated 24 October 1979. The referral was received on 5 November 1979. Its purpose was to ascertain whether Army records responsive to your request are located in the Washington National Records Center.

A check was made of the Unit Historical Data Section of The Adjutant General Center. That activity could not identify the unit you describe as Material Test Unit Number 1, Fort Meade, Maryland or the same unit designation with the numbers 8723 in Room 1B945, the Pentagon. Unfortunately, their system is such that to search an organization the Unit Identification Code (UIC) must be furnished. To compound the problem, UICs were not used during the time frame December 1953 through January 1958. Nevertheless, they did conduct a search which proved fruitless.

We then checked the world-wide records locator data. These are the records which the Army has responsibility located in the Federal Records Centers. The search failed to produce any GSA Form 135 (Transmittal of Records) for the USA Material Test Unit Number 1, Fort Meade, MD. However, the search did reveal that TMM Headquarters, 2d Army in Fort Meade retired several collections of files covering the time period of your search. I am inclosing these transmittals for your review to determine whether any of the collections might contain specific documents you are seeking. Depending on the classification of the documents, we can reproduce the unclassified documents and send them to you. There will be a search and reproduction fee assessment once we can determine whether or not you wish us to proceed with a recall of any of the files listed in the attachments.

DECLASSIFIED AND RELEASED BY  
CENTRAL INTELLIGENCE AGENCY  
SOURCE: METHOD: EXEMPTION: 3B2B

FOR COORDINATION WITH

US Army

Also, if you can provide us with a unit designation of the next higher headquarters of Mr. Tcherin Sobokov and a description of the exact research duties he performed as a civilian consultant on a contract basis, we might be better equipped to locate the activity that retired the records, if they were in fact retired and contain the employment and other information you are requesting.

I regret that our reply could not be more positive at this
